

Pumpkin, Pumpkin

Materials:

Paper plates (orange or white) two-per student

Construction paper (brown, dark green, yellow, light green, orange)

Yarn (brown or green) – 5 pieces, 6-8" inches long

Scotch tape

Scissors

Stapler

Directions:

You can use cardboard patterns to trace each shape out of proper color or Xerox directly onto proper color paper (seed-brown, leaf-dark brown, blossom- yellow, small pumpkin- light green, large pumpkin – orange). Tape 1 piece of yarn to inside of paper plate (eating side). Staple 2 plates together (top or eating sides together) at edge. Leave opening about 1/3 diameter of plate. Yarn should be extended out of opening. Figure 1. Then staple and tape each shape in order with yarn in between each piece. Figure 2. When assembled, stack shapes nicely and place in opening of pumpkin. Starting with seed, slowly pull shapes out of pumpkin as the story is told about how pumpkins grow.
