

If you are using **Windows 7** as your browser on your computer you will have to save the SMART lessons differently. Follow the steps below to save and open you AITC SMART lesson.

1. Select the lesson that you wish to open but instead of double clicking it, **RIGHT** click on the lesson.
2. Next you will want to click on **SAVE TARGET AS.**
3. In the file name box you will see it has the name of the lesson you have chosen followed by **.zip**, you will need to erase the .zip and type **.notebook.**

This should fix the problem of not being able to open from Windows 7, it's a file recognition error in Windows 7
